

DAY-05

Testing, Error Handling, And Backend Intergation Refinement :-

Today is day 05 of Hackthon and here is my

- Check API (THUNDER CLIENT)

- Then, I was install lighthouse to check my performance

```
C:\Users\DELL\Desktop\uiiuxx>npm install -g lighthouse

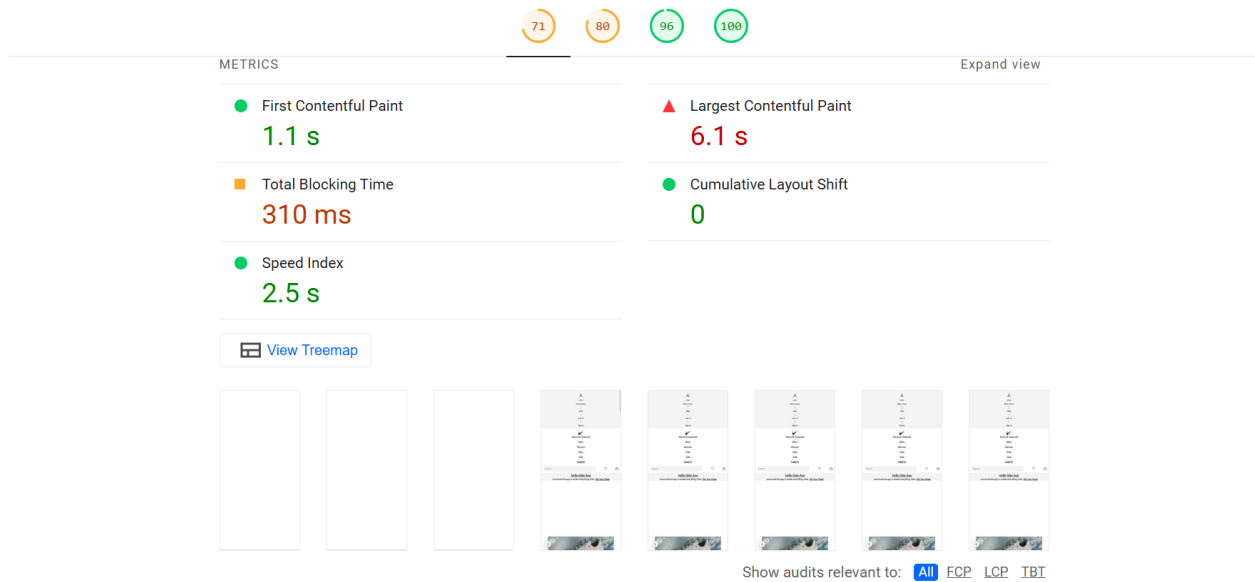

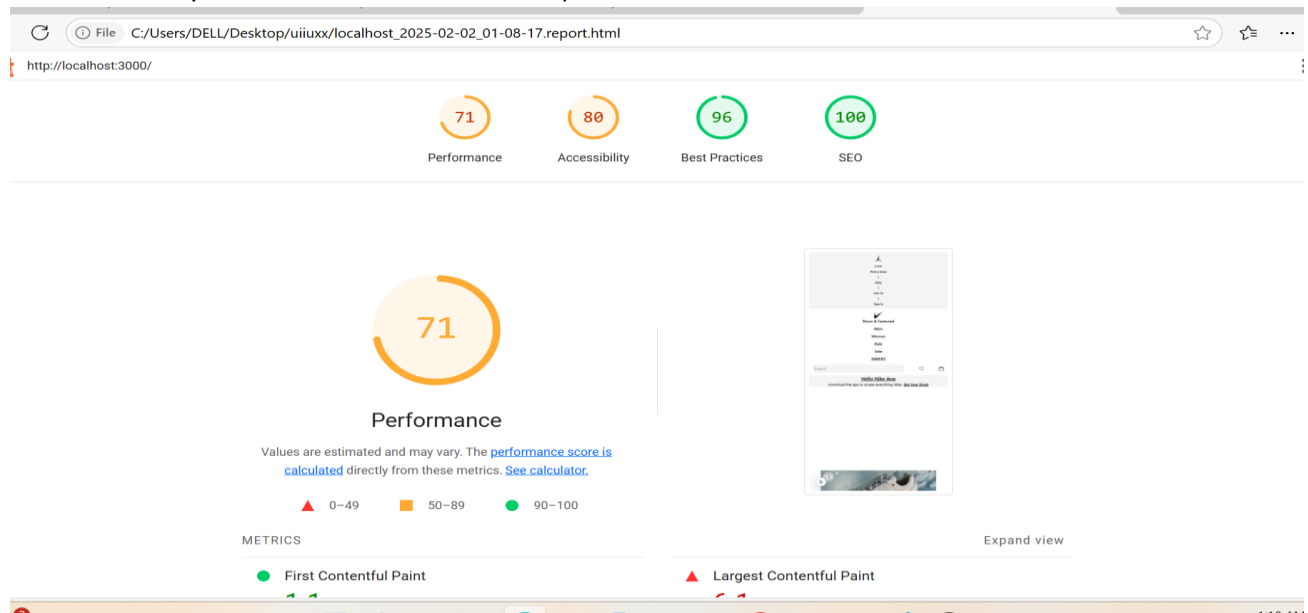

added 163 packages in 51s

11 packages are looking for funding
  run `npm fund` for details

C:\Users\DELL\Desktop\uiiuxx>npm fund
uiuxhackathon@0.1.0

- You Can See My Performance I know IAM not perfect

Accessibility

These checks highlight opportunities to [improve the accessibility of your web app](#). Automatic detection can only detect a subset of issues and does not guarantee the accessibility of your web app, so [manual testing](#) is also encouraged.

CONTRAST

▲ Background and foreground colors do not have a sufficient contrast ratio.

These are opportunities to improve the legibility of your content.

Best Practices

USER EXPERIENCE

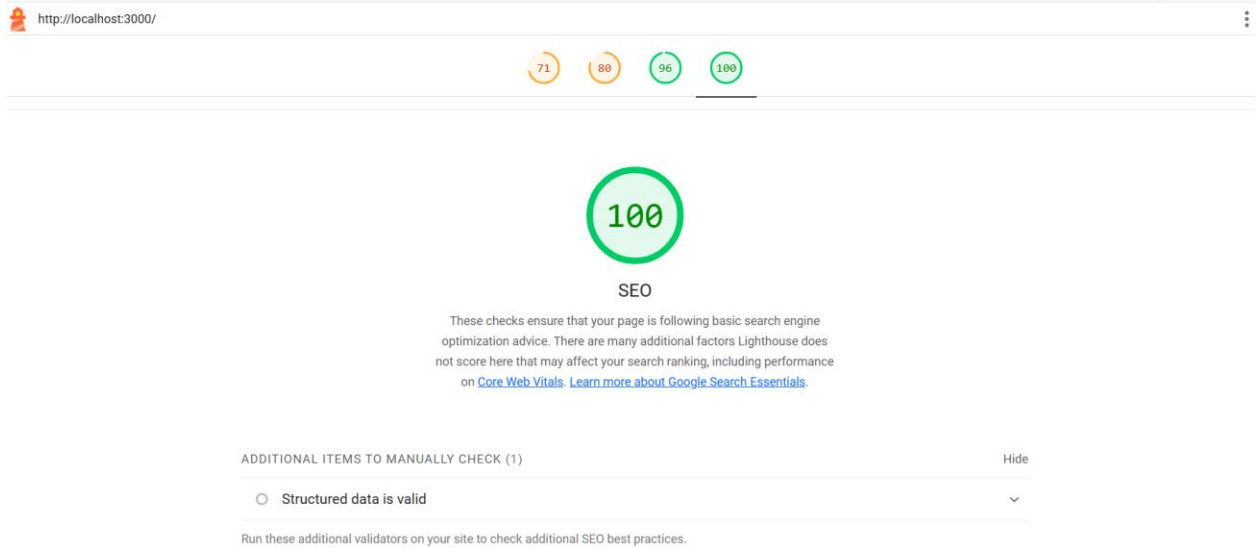

▲ Displays images with incorrect aspect ratio

TRUST AND SAFETY

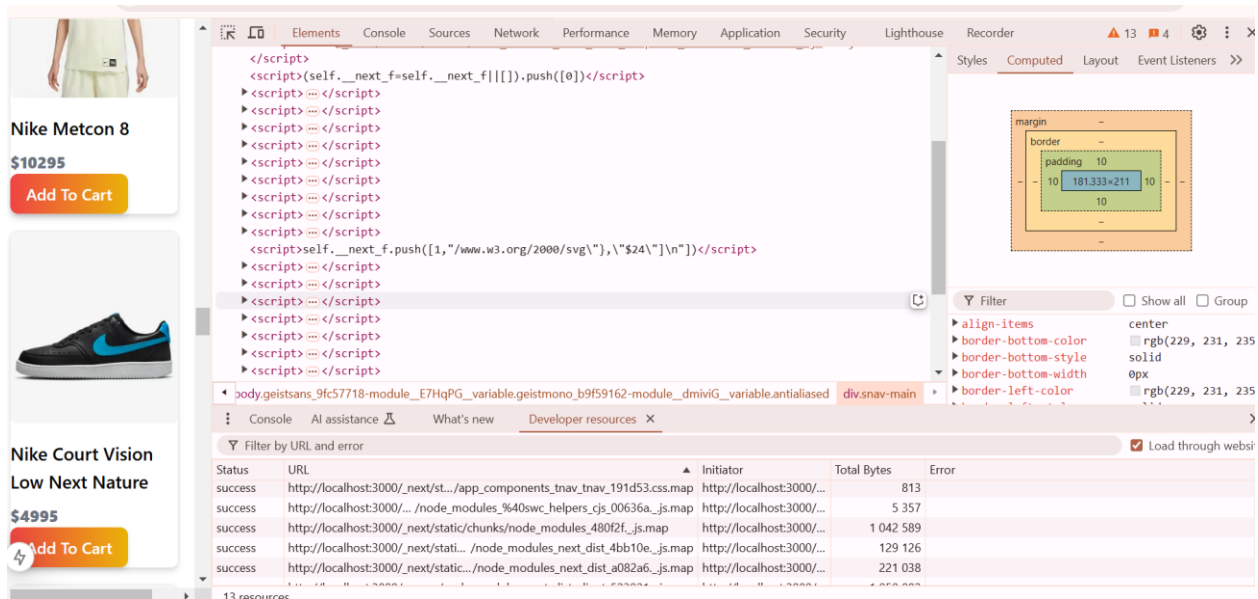

○ Ensure CSP is effective against XSS attacks

○ Use a strong HSTS policy

○ Ensure proper origin isolation with COOP
